## **Message from Huzoor Anwar**

“ Dear Khuddam and Atfal,

السلام وعلیكم ورحمة اللہ وبرکاتہ

It has brought me great joy to know that Majlis Khuddamul Ahmadiyyah Australia is holding its National Tarbiyyati Camp. May Allah the Almighty make this event a great success. Ameen!

Respected Sadr Sb Majlis Khuddamul Ahmadiyyah Australia has requested for me to send a message for this event. I would like to use this opportunity to ask all, to always stay steadfast to the blessing of Khilafat.

After the demise of the Promised Messiah (as) Allah the Almighty has blessed us with the institution of Khilafat. You should always hold on tight to the rope of Allah and stay steadfast to it. One way of building a living relationship with the blessed institution of Khilafat is by regularly listening to the sermons of Khalifa-tul-Masih.

Reflect on how our beloved Lord has been so gracious upon us that he has instilled within us a love of Khilafat which drives an urge within us to constantly meet with Khalifa-tul-Masih. It is their key wish that they listen to the words of the Khalifa directly from his blessed mouth by which they do their moral and spiritual reformation.

So it is by the sheer grace of Allah the Almighty that he has graced us with the blessing of MTA, through which you all listen to the friday sermon of the Khalifa and also many other programs in which the teachings of the Holy Quran, Ahadith and the Promised Messiah (as) are played and you are able to quench your spiritual thirst.

It also broadcasts programs which guide you to the right path and stop you from anything that is vain as well as turns your attention towards Salat and worship, for those who have become negligent of these duties. It sheds light on very fundamental moral aspects of faith. Whilst also teaching one the rights of Allah the Almighty as well as the rights of mankind. Also teaches the doctrines of Islam and Ahmadiyyat. Whilst also teaching a way to bring peace into the world as well as teaching how one can strengthen the bond with Khilafat and Nizaam-e-Jamaat.

Those who are regularly listening to these Sermons are being graced by the blessings of these teachings. They are also elevating in their religion and spirituality. Through these sermons they are removing their moral weaknesses and proving to be the best people in the society they live in.

There is no doubt that the majority of the Jama'at are listening regularly to these sermons. Members of the Jama'at listen to the sermons of Khalifa-tul-Masih and act upon them and they are the ones who are showing their utmost sincerity and loyalty, in their hearts is extraordinary respect.

I congratulate these people as these are the signs of a true believer. These people should pledge that they will stay steadfast in their actions. But then there are also those people who give worldly matters precedence over their faith and are lazy in watching my sermons. To those people my advice is that they should stop being lazy and start regularly watching my sermons.

Majlis Khuddamul Ahmadiyyah as an auxiliary should evaluate and get all Majalis to pay special attention to this matter. Also my sermons should be formulated in a question and answer many should be made available to all Khuddam and Atfal so that they should know what their Khalifa has instructed them to do and what the Khalifa-tul-Masih expects of them. If all Khuddam and Atfal become regular in listening to Friday Sermons then this will *InshAllah* be the best source of moral training for them.

May Allah the Almighty enable you to do so. Ameen.
